HOW DID THIS PRACTICE FLOURISH DURING COVID?

As lockdowns and business restrictions led many PT clinics to suffer, Lisa of Eastside Rehab sought the help of her Practice Promotions marketing team, leading her to more fully utilize all the tools in her marketing subscription. In addition to updating her website and patient newsletters with COVID safety content, she also used email campaigns and social media to consistently communicate with her patients. Lisa saw almost immediate results, eventually doubling her monthly patient numbers and surpassing her pre-COVID stats!
